WHEN WRITING A RESEARCH REPORT

BE SURE TO:

- Choose an interesting topic
- Find source material and evaluate them with care to make sure they are reliable
- Use more than one source to find information about the topic

- Make an outline and take notes
- Use accurate facts to support topic sentences
- Make sure subjects and verbs agree
- Provide pictures, photos, or graphs if they are helpful to your readers
- Summarize the findings at the end of your research report
